

# CNC - turning & milling operator

## CNC Production

Since its foundation in 1923, the KESSLER Group has developed into the world's leading manufacturer of motor spindles, direct-drive milling heads and turning/swivel tables for machine tool industry.

Based on its core competence in the development of electric drives and machine systems, KESSLER brings high precision to its products and sets new standards in the machine tool industry.

### Your responsibilities

- Equipping as well as operating the CNC milling and turning machines
- Knowledge of CNC controllers (Siemens and Heidenhain iTNC 530)
- Making prototypes
- Simple corrections and adjustments of the tool and program itself
- Independent measurement and documentation
- Carrying out the worker self-check
- Monitoring the quality
- Machines, tools and measuring equipment maintenance
- Maintenance work on the machine (top up oil, clean filter)

### We look forward to receiving your application!

\*Only selected candidates will be contacted for interview

\* By submitting your CV, you agree that your data will be retained in our database for a period of 12 months
