

Node.JS Developer

www.itcrowd.me

If you have **at least one year of experience as a Node.JS Developer** and have the next **skills and qualifications**:

- Strong proficiency with **JavaScript** (**Angular** is a plus)
- Knowledge of **Node.JS** and frameworks available for it (**Express**)
- Understanding the nature of asynchronous programming and its quirks and workarounds
- Good understanding of server-side templating languages (**Jade**)
- Good understanding of server-side **CSS preprocessors** such as **Stylus, Less**
- Basic understanding of front-end technologies, such as **HTML5**, and **CSS3**
- Understanding accessibility and security compliance
- User authentication and authorization between multiple systems, servers, and environments
- Integration of multiple data sources and databases into one system
- Understanding fundamental design principles behind a scalable application
- Proficient understanding of code versioning tools, such as **Git**
- Implementing automated testing platforms and unit tests is an advantage
- Excellent communication skills and being able to work independently or in a full team

We would be happy to meet you and give you the opportunity to be part of our ITCrowd. If you are interested to hear about our offer, just send us your CV to kristina.peshevska@itcrowd.me or feel free to contact us to get more information.
