WORDPRESS ELEMENTOR DEVELOPER

Position Summary: We are looking for a skilled WordPress Elementor Developer to join our team! If you are passionate about creating stunning websites, have a strong ability to convert designs from Adobe XD or Figma into fully functional WordPress websites, and can develop custom plugins, this opportunity is perfect for you.

Location: Remote
Type: Full-time

Main Responsibilities:

- Convert designs from Adobe XD and Figma into responsive and fully functional WordPress websites using Elementor or Advanced Custom Fields (ACF).
- Develop and maintain custom WordPress plugins to meet project requirements.
- Collaborate closely with the design and development teams to ensure seamless integration of designs and functionality.
- Troubleshoot and resolve issues related to website performance, functionality, and compatibility.
- Regularly update and manage WordPress websites, ensuring they are secure and optimized.
- Work daily on dedicated projects, delivering high-quality work on schedule.

Requirements:

- Proven experience as a WordPress developer, specifically using Elementor and ACF.
- Strong proficiency in converting Adobe XD and Figma designs into WordPress Elementor websites.
- Solid experience with custom plugin development.
- In-depth knowledge of HTML5, CSS3, JavaScript, PHP, and MySQL.
- Familiarity with responsive and adaptive design principles.
- Ability to work independently and handle multiple projects simultaneously.
- Excellent attention to detail and problem-solving skills.
- Strong communication skills and a collaborative mindset.

Beneficial Skills

- Experience with WooCommerce or other eCommerce platforms.
- Familiarity with SEO best practices.
- Knowledge of Version Control Systems like Git.

If you are a dedicated WordPress Elementor Developer looking for a new challenge, we'd love to hear from you! Please submit your resume, portfolio, and examples of custom plugins you have developed.
