

Senior Web Developer

Nebb is a globally recognized provider of high quality industrial IT services and products. We create and deliver broad technical solutions for control as well as information management systems, to a number of industries including process industry, cogeneration, marine and oil & gas. Our core competences are within automation, SCADA, software, electrical, instrumentation and information systems. Furthermore, we develop special products for subsea and PMC.

We have customers located worldwide, while our stronghold is in Norway - our group headquarters. Nebb has challenging tasks that are inspiring and attracting qualified engineers excited about tackling the hard problems in technology. For our office in Skopje, we are looking to engage two such engineers that will maintain, develop and extend Nebb's product portfolio. The successful candidates should possess a minimum of a Bachelor's degree in computer science or equivalent education, have a very good knowledge of programming, with skills in more than one of the following:

- 3+ years experience with Microsoft Azure cloud services
- Proficiency in writing and maintaining applications using C#, .Net
- Strong understanding of SQL
- Knowledge of MVVM and MVC patterns
- HTML, CSS, JavaScript

- Self-starters, self-directed, with good communication skills
- Team players, comfortable with collaborating as well as leading and working independently
- Provide direct and indirect support/consultation to other colleagues and peer group

Nebb is an equal opportunity employer and has a notable culture built on the principles of hard work and great work-life balance. A requirement for all our employees is to be dedicated, curious and willing to learn and develop. They should be structured and organized, with very good command of English, both written and spoken. Availability and commitment to travel abroad is considered essential.

Further information can be obtained on our website www.nebb.com

Send your application online by clicking "Apply for this position" on our careers web page. Should you have any questions, contact careers.mk@nebb.com

Only selected candidates will be contacted.
