

We want you!

Senior WordPress Developer (m/f/d)

in Skopje

You want to work on exciting projects and use modern tools and technology like Composer, Docker, GitLab CI/CD, Git, Gulp, Webpack, Docker, Kubernetes, Cloud Services, GraphQL? You like working professionally in a team of web developers which takes DevOps and Scrum seriously, works agile and improves constantly? Our company is the right place for you!

SNK is a unique digital agency as we combine highest standards with a family atmosphere working culture and deep experience with fresh curiosity. We are a team of 100+ colleagues, owner-run and fully digital. Our team in Skopje works closely with its sister company in Munich, Germany.

Your duties:

- You provide technical leadership within the team with strong communication skills and a 'getting things done' mentality.
- You provide good organizational skills and detail-oriented mindset with strong analytical thinking and problem-solving skills
- Communicate with clients to gather requirements and assess their objectives during the pre-development and development stages of projects
- Participate in the full life cycle of the project including functional specifications, work estimates, design, development, bug resolution, and deployment
- Organize, plan and distribute the work within the team
- Coordinate with third party vendors to reach the project goals
- Work closely with marketing, design and devops team to ensure project success
- Love doing WordPress

Your expertise:

- At least 5 years of experience in WordPress
- Good understanding in HTML, CSS, jQuery, Bootstrap
- Solid PHP and MySQL skills
- Managing and administrating WordPress installations and migrations
- Be super routined in clean backups, domain transfers, patches etc.
- Experience with wpengine.com and it's backend for their managed hosting
- Good knowledge of Wordpress best practices regarding security, SEO, analytics
- Experience with Divi and the Divi Builder from Elegantthemes
- Ability to efficiently debug, optimize and resolve performance issues
- Comfortable in working with third party plugins, themes and extensions

Optionally:

- Ability to develop new WordPress themes, page templates, and plugins from scratch and modify existing themes and plugins
- Knowledge in server administration and maintenance
- Experience using Git
- Familiar with GCP or any similar Cloud Service Platform

What we offer:

- Exciting projects for international clients
- Personal career development incentives
- State of the art hardware
- Private health insurance
- Work in our beautiful offices in central Skopje and occasionally Munich while earning an attractive salary
- Fitness activities
