

## Teamleader

### CNC Production

Since its foundation in 1923, the KESSLER Group has developed into the world's leading manufacturer of motor spindles, direct-drive milling heads and turning/swivel tables for machine tool industry.

Based on its core competence in the development of electric drives and machine systems, KESSLER brings high precision to its products and sets new standards in the machine tool industry.

#### Your responsibilities

- Supervise and coordinate CNC activities and metal working
- Provide guidance and technology support to CNC team
- Productive cooperation with CNC operation and programming
- Address and resolve technical issues related to CNC machines, processes and metal working operations
- Conduct regular inspections and quality checks on finished products
- Ensure implementation and application of safety protocols
- Maintain accurate records of production activities, machine maintenance, and quality inspections
- Support the development and extension of CNC operations
- Maintain collaborative and productive team environment

#### We look forward to receiving your application!

\*Only selected candidates will be contacted for interview

\* By submitting your CV, you agree that your data will be retained in our database for a period of 12 months
